Profile

Aspiring Software Developer with hands-on experience in Python, C, and C++. Skilled in Data Structures and Algorithms (DSA), problem-solving, and software development fundamentals. Eager to contribute to application development, backend systems, and scalable software solutions with a strong focus on code quality, performance, and clean architecture.

Skills

Python Programming

Git

Linux

HTML

SQL

CSS

C Programming

C++ Programming

Courses

Smart grid: Basics to Advance Technologies
India Institute of Technology Roorkee
2023 | NPTEL Online Certification

Languages

English	●●●●●
Telugu	●●●●●
Hindi	●●●●●
Tamil	●●●●●

Education

- Bachelor's Degree in Electrical and Electronics Engineering (EEE)**
P.B.R. Visvodaya Institute of Technology and Science
2021 – 2024 | Kavali
- Diploma in Electrical and Electronics Engineering (EEE)**
Sri Sai Institute of Technology & Science
2016 – 2020 | Rayachoty
- Secondary School Certificate (SSC)**
Bhashyam High School
2016 | Rajampeta

Projects

- Electrical Fault Detection and Analysis Using Arduino - Based On Household Appliances**
01/2024 – 05/2024
Developed a real-time system using temperature, flame, voltage, and current sensors.
 - Integrated with IoT platform (Ubidots) for real-time monitoring and alerting.
 - Tools: Arduino, DHT11, LCD, Voltage/Current Sensors, Embedded C.
 - link:<https://jespublication.com/uploads/2024-V15I40210.pdf>
- Smart Street Light Control System**
2024 – 2025
Languages: Embedded C, Python
 - Designed a smart streetlight system using Arduino for hardware control and a Python GUI for mode selection (Manual, Auto, Smart). Enabled efficient energy use through real-time serial communication.
 - Tools: Arduino, Embedded C, Python (serial, tkinter, datetime)

Voice assistant

Designed and implemented a voice-activated assistant named Friday to provide hands- free interaction for performing various tasks, including playing music, retrieving the time/date, sending emails, searching Wikipedia, opening websites, and interacting with OpenAI's ChatGPT. The assistant listens to voice commands, processes them using speech recognition, and responds dynamically using text- to- speech.

Certificates

- Internship in Python Programming – IIES, Bangalore
- Training in Application Development using Python – Deeksha Technologies, Kavali

Declaration

I hereby declare that, to the best of my knowledge, the details and information given above are complete and true.
